### DW6

Have an application that requires linear motion measurement? Then the Avtron DW6 Draw Wire is perfect for you! All the benefits of the Avtron AV6 absolute encoder combined with our rugged draw wire adapter allows for distance measurement in your application.

The Avtron DW6 includes the Avtron AV6 58 mm synchro flange absolute encoders, like the Avtron AV6A and AV6M!

Avtron AV6 absolute rotary encoders have superior shaft seals and bearings that stay sealed to keep contaminants out, despite temperature cycles or liquid sprays. Our encoder seals are protected by mechanical barriers to prevent flexing or failure. Avtron's superior bearings permit much larger side and axial loads.

Available in both optical and magnetic, the Avtron AV6 is designed with superior shaft seals and bearings that stay sealed to keep contaminants out, even through temperature cycling and liquid sprays.

Available as a fully configured encoder/draw wire combo kit! Order yours today!
